

OC Junior Team Tennis 2010 Fall League Information Ability Levels

Novice ~ These are kids who have just learned how to play matches. They may still need some assistance. They should be able to serve over-head, know how to keep score, call lines and be educated as to rules and expected etiquette, but may still need reminders in these areas.

Intermediate ~ Players who have just graduated from the Novice level and are proficient at match play. These are players who might feel comfortable entering a Satellite tournament, but probably would not make it past a few rounds. Championship Teams progress to Sectionals.

Satellite ~ Players who would do well in a Satellite tournament, but are not quite ready for Open. Championship Teams progress to Sectionals.

Advanced ~ Open Level players and those who are strong. Any ranked player may play. Players who have played on winning teams at Sectionals in the past must play in the advanced division. Players who play varsity high school tennis must play advanced, unless they were granted a waiver to play Satellite or Intermediate before the beginning of the league. Players with certain ranking as outlined in the Sectional Handbook must play advanced. Championship Teams progress to Sectionals.
